

# Common Scents

Lenape Tracking Club of Central New Jersey  
July/August 2007 Volume 32 Issue 4

---

## President's Message

Summer is finally upon us and it has been an interesting one so far. I hope all of you are enjoying these days. We have some up and coming club events that I would like to keep the membership in the loop. Tracklayer certification will be held within the next month. If anyone is interested in becoming a tracklayer please send you name to Christine Landuyt. Also coming up will be our Club Certification on September 22 and 23. We are looking for tracklayers. Please contact me, Carol Shields if you are available. Rosemary Laubach is the event secretary should anyone be ready to become certified for their TD.

One final note before I close, a key Club member's name was omitted from the TED recognition list; Bev Olsen. Bev has been a TED volunteer for as long as I can remember and with her help the event is smooth running. Thanks Bev!!!!

Enjoy what is left of the Summer. Stay cool and happy tracking.

Carol

Secretary: Mimi Ruch 908-722-9723  
Treasurer: Peter Heide 609-466-4160  
Membership: Christine Landuyt 732-222-3639

### **Board:**

Peg Forte 908-832-7231  
Gina DeAlmeida 908-963-9552  
Teryl Lebkuether 732-493-4919  
Joan Luckhardt 732 329 3429  
Donna Hess 908-953-9431

Past President: Alice Crans 908-537-2574

a fixed income, this trait may not be a bad thing for you. However, I really have to say not so much starch! (More discrimination package of chicken be in her mouth – over that

## **Healthy Flea Fighting dog biscuits**

### ***Ingredients:***

2 cups whole-wheat flour  
½ cup wheat germ  
½ cup brewer's yeast  
1 teaspoon salt  
2 cloves garlic, ground  
3 tablespoons olive oil  
1 can low sodium chicken stock

### ***Directions:***

Preheat oven to 200° C.

Grease 4 baking sheets.

Combine in a large mixing bowl the whole flour, wheat germ, brewer's yeast and salt. Mix the oil and garlic together and then add in flour and stock until all of the ingredients are mixed.

The mixture should be sticky but not too wet. Make dough into a ball. Put mass onto a floured surface and roll out until the all the dough is about 1 ½ cm thick. Using a biscuit cutter, cut into uniform shapes.

Place the raw biscuits on the baking sheets and bake in the oven for approximately 20 to 25 minutes or until completely browned. After you turn off the oven leave biscuits in so that they harden completely.

Put into an airtight container and store in the fridge or freezer.

Makes about 18 biscuits.

### ***Healthy Tips:***

Did you know that not only are Brewer's yeast and garlic great supplements, but they have both been proven in laboratory tests to keep fleas at bay. Make sure to give your dog time to get used to eating Brewer's yeast and then you can begin putting it in all of his food, as it is completely beneficial has not side affects and will help to increase his resistance to the bloodsucking jumpers.

## *Editor's Corner*

We've used this with pretty good success in areas where we don't want to spray herbicides, like in the dog yard, around the runs and even selected areas of the garden.

Not a permanent solution but certainly more environmentally friendly than things like Roundup.

### Shell Busey's Weed Killer Formula

4 cups (1 Litre) of white vinegar

1/4 cup (50 ml) of table salt

2 tsp (10 ml) of your favorite liquid dish soap

Put this mixture into a spray bottle and spray it on your weeds when it is hot out.

For 1 gallon of mixture multiply by 4

Remember, this formula really works and is only recommended for driveways, sidewalks and the like. If you spray it onto the weeds in your lawn, you're going to kill the grass too and create a big ugly brown spot.

mix can be effectively applied to larger areas using a 1 or 2 gallon pressure sprayer.

## ***Any Suggestions?***

The Lenape membership is encouraged to share any suggestions or concerns with the Lenape Board. We are always trying to improve attendance at our events, improve our programs and get more people involved in tracking. You can reach any Board member by phone (listings in this newsletter) or by emailing [info@lenapetrackingclub.org](mailto:info@lenapetrackingclub.org).
